AGIL AZIZOV

Backend Developer

Solid experience in developing and maintaining fast web applications based on Java, with a focus on Backend development. Relevant skills include proficiency in Java, Spring Framework, Spring Boot and Spring Security. Strong knowledge of Hibernate and JPA. Experienced in creating RESTful APIs and designing database schemas.

EXPERIENCE

Backend Mentor
DesInfTec (Design and Information Technologies) organisation
10.2023 – 01.2025   *Baku, Azerbaijan*
- *In a nutshell, it's a self study course system, which is currently free and functioning in my university. Instead experts, teachers are experienced students, who share their knowledge and create foundation for non-experienced ones and with taught self-study techniques, students improves themselves.*

Backend Instructor
Developia Engineering Academy
08.2024 – Present   *Baku, Azerbaijan*
- Provide mentorship and guidance to students in the Developia course.
- Conduct regular mentoring sessions and code reviews.
- Assist students with debugging and problem-solving techniques.

Backend Developer
Developia Engineering Academy
01.2025 – Present   *Baku, Azerbaijan*
- Develop and maintain backend solutions for large-scale projects, ensuring performance, reliability, and seamless integration using Spring Boot and MySQL.

Backend Developer
Desinftec
07.2025 – Present   *Baku, Azerbaijan*
- Implemented JWT-based authentication and role-based authorization for API security.
- Designed and optimized RESTful APIs to ensure high performance and scalability.
- Worked with Spring Boot, Spring Security, and MySQL to build robust backend solutions.

PROJECTS

Otogo
A mobile service platform that helps customers easily find nearby car services and allows service providers to manage their businesses efficiently.

Munchigo
Online cookie ordering system – built in Java programming language and MySQL database management system

EpiCure
Developed a Spring Boot Restaurant Service app for efficient management of menus, orders, and customer interactions.

CERTIFICATES

Backend Development Certification of Course Completion
By Developia Engineering Academy
Principles of object-oriented programming, database integration, multithreading, and project development in Java.

EDUCATION

Bachelor in Computer Sciences
Khazar University
09.2022 – Present   *78.56 GPA*

Java Backend Development
Developia Engineering Academy
01.2024 – 06.2024
