EXPERIENCE

Software Engineer (Part-time, Hybrid) | 06/2025 – Present

OTOGO LLC, Baku, Azerbaijan

- Engineered and implemented 20+ REST API endpoints for web and mobile applications.
- Partnered with frontend engineers to define API contracts and ensure seamless end-to-end integration for the B2B mobility platform.
- Owned Docker-based deployment workflows and contributed to CI/CD automation, streamlining the release process.

Backend Developer (Part-time, Hybrid) | 07/2025 – 06/2026

Desinftec LLC, Baku, Azerbaijan

- Implemented JWT authentication and role-based authorization for secure APIs serving 500+ users.
- Optimized database queries and API performance, reducing average response times by approximately 30%.
- Structured a microservice-oriented architecture that improved scalability and streamlined deployments.
- Owned the integration of Spring Security and Hibernate into production backend services, strengthening authentication reliability and data-layer consistency.

DevOps Engineer (Freelance, Remote) | 01/2026 – 05/2026

QRavan LLC, Baku, Azerbaijan

- Containerized 4 backend services using Docker and Docker Compose, cutting local environment setup time from a full day to under an hour.
- Configured and maintained CI/CD pipelines, reducing deployment time from 10 minutes to 2 minutes.

Backend Developer (Full-time, On-site) | 08/2024 – 05/2026

Developia Engineering Academy, Baku, Azerbaijan

- Built backend services supporting an educational platform with over 200 students.
- Developed 15+ REST API endpoints using Spring Boot.
- Designed reusable backend components to simplify future feature development.
- Coordinated with frontend developers throughout the development cycle to align on API structure and resolve integration issues early.

Backend Mentor (Part-time, Hybrid) | 10/2023 – 01/2025

Design and Information Technologies Club, Baku, Azerbaijan

- Mentored more than 30 students in Java and Spring Boot.
- Conducted code reviews and technical mentoring sessions.
- Helped approximately 85% of students successfully complete the backend development program.

SUMMARY

Backend Software Engineer with 2+ years of experience building Java and Spring Boot applications. Skilled in developing REST APIs, implementing Spring Security with JWT, optimizing database performance, and deploying applications using Docker and CI/CD. Experienced in designing and delivering scalable backend solutions while mentoring junior developers.

IT SKILLS

- Languages:** Java, SQL
- Databases:** PostgreSQL, MySQL, Redis, Liquibase, H2
- Messaging:** Kafka, RabbitMQ
- Frameworks/Libraries:** Spring Boot, Spring Security, Spring Data JPA, Hibernate, Spring MVC, Spring Validation
- APIs:** REST APIs, OpenAPI (Swagger), Postman
- Testing:** JUnit 5, Mockito
- Tools:** Git, GitHub, Maven, Gradle
- DevOps:** Docker, Docker Compose, Kubernetes, GitHub Actions, CI/CD, Nginx, Linux
- Concepts:** OOP, SOLID, Design Patterns, Microservices
