

Agil Azizov

Cybersecurity & Systems Engineer | Linux, Networking & Cloud Infrastructure

agilaziovf@gmail.com | Portfolio | +994 55 548 68 11 | LinkedIn | Baku, Azerbaijan | GitHub

SUMMARY

IT professional focused on Linux, System Administration, Networking, and Cybersecurity, with a supporting background in Java/Spring Boot backend development. Skilled in Docker, CI/CD, troubleshooting, and infrastructure automation.

PROFESSIONAL EXPERIENCE

DevOps & System Administrator QRAVAN LLC 	01/2026 – 09/2026 Remote
Containerized backend services with Docker/Docker Compose and configured CI/CD pipelines, cutting deployment time from 10 minutes to 2 minutes.	
Cyber Security Specialist Intern Brain Solutions 	12/2025 – 06/2026 On-site
Assisted in securing and administering Linux/Windows systems and network services (TCP/IP, DNS, DHCP, SSH, VPN), automating routine tasks with Bash and Python.	
Freelance Software Engineer Multiple freelance & contract engagements	10/2023 – 07/2026 Remote/Hybrid
- Developed and maintained backend services and RESTful APIs using Java and Spring Boot across multiple freelance engagements. - Mentored 30+ junior developers in Java, OOP, and backend fundamentals; contributed to Docker-based CI/CD workflows.	

PROJECTS

Linux Server Administration Lab System Administration / Linux
Configured an Ubuntu Server with SSH, Nginx, UFW Firewall, users/groups/permissions, and system services; automated backups with Bash scripting.
Python IT Automation Toolkit Python / IT Automation
Built Python scripts for system monitoring, disk/network checks, and automated file/backup management with error handling and logging.
Security Monitoring Lab Cybersecurity / Blue Team
Built a Linux-based security monitoring environment to detect failed SSH logins and suspicious activity via custom scripts and firewall rules.

IT SKILLS

Operating Systems: Linux, Ubuntu, Windows, Windows Server
System Administration: Linux Administration, Windows Administration, User & Group Management, File Systems & Permissions, Process & Service Management, System Troubleshooting
Networking: TCP/IP, DNS, DHCP, SSH, VPN, Firewalls, Network Troubleshooting
Cloud & DevOps: AWS, Azure, Docker, Docker Compose, Git, GitHub, CI/CD, Nginx
Cybersecurity: Network Security, IAM, Vulnerability Management, Security Monitoring, SIEM Fundamentals
Programming & Scripting: Python, Bash, Java, SQL

EDUCATION

Master of Science Azerbaijan Technical University  Specialization: Cryptography	09/2026 – Present Baku, Azerbaijan
B.Sc. Computer Science Khazar University 	09/2022 – 06/2026 Baku, Azerbaijan

LANGUAGES & SOFT SKILLS

Languages: Azerbaijani (Native), English (Upper-Intermediate), Russian (Upper-Intermediate)
Soft Skills: Problem Solving, Analytical Thinking, Adaptability, Communication, Leadership & Mentoring
